

## Vertical & Lateral

# International Series

## The Ultimate in Filing Performance: Plus a Lifetime of Peace of Mind.

Introducing the FireKing® International Series: vertical and lateral fireproof files specially designed for International-office specifications. FireKing Internationals are built with extra vertical height to file even the largest documents and with capabilities that allow for filing of any combination of A-4, box file, foolscap, ledger and folio sizes.

For safeguarding your valuable records and documents, no other fireproof file gives you as much peace of mind as the International Series.

Protects documents for at least one hour in temperatures over 1700° F

The International Series File, like all FireKing files, carries the Underwriters Laboratories® 350 one-hour label. This means that the internal temperature of the filing cabinet will not exceed 350° F for at least one hour when exposed to external temperatures of over 1700° F.

This exhaustive testing proves that the International Series is built to survive the worst conditions. Its oven-dried, asbestos-free insulation maintains this protection for a lifetime.

Impact-tested in 30-foot falls

Because of its unique steel lattice reinforcement, insulation between drawers and extra-thick steel panels, the International Series will survive a loaded fall of 30 feet – and still keep its contents safe in a fire.

We guarantee it

Like all FireKing files, the International Series carries FireKing's exclusive 3-Year Warranty.

European Fire Test Standards

FireKing model 4-2157-VML carries the ECB-S S60P label meeting all new European standards.

4-2157-VML:  
Four-Drawer Vertical International

Dimensions:  
1448 mm H x 539 mm W x 802 mm D  
57" H x 21 7/32" W x 31 1/2" D"

Weight:  
345 kg/ 759 lbs.

4-3857-CML:  
Four-Drawer Lateral International

Four times the filing capacity as the Two-Drawer Vertical International File. Now available in the popular low-profile lateral design.

Dimensions:  
1448 mm H x 952 mm W x 562 mm D  
57" H x 37 31/64" W x 22 1/8" D

Weight: 460 kg/ 1012 lbs.

## International Series Specifications

### Dual Fire Rating

The FireKing® International Series carries Underwriters Laboratories® Class 350 one-hour fire and impact rating, and the ECB-S S60P labels.

### Insulation

The International Series casting is of 100% gypsum insulation, dried in a low-temperature oven to reduce free moisture to less than 1/2%. Insulation is reinforced with 2 mm thick galvanized welded-steel wire; and insulation between all drawers makes each drawer a separate insulated container.

### Steel Panels

All exterior International steel panels are replaceable in the field in the event of minor damage.

### Finish

An electrostatically-applied powder coating makes for the International's superior scratch, scuff and stain resistance. Plus, a five-stage pre-finishing treatment is provided for unmatched adhesion and rust resistance.

### Drawer Suspensions

A heavy-duty suspension is securely mounted with screws to metal posts in the International Series file body.

### Drawer Bodies

Each International File drawer body is built with high sides for use with hanging folders – no additional frames are required. Drawers are suitable for A-4, box file, folio, foolscap and ledger filing. (Divider rails are included with each file to allow for a variety of filing configurations.)

### Drawer Heads

International drawer heads are formed of welded steel and filled with gypsum insulation. The drawer heads are designed for a tight interlock with the cabinet frame – making the drawers extra-resistant to heat transfer.

### Drawer Lock

The FireKing Internationals feature a heavy-duty keylock and optional combination locks for additional security and multiple locking.

### Drawer Bypass

Works for all International drawers. In its "up" position, a two-position drawer catch allows that drawer to stay unlocked while all other drawers remain locked.

### Drawer Pulls

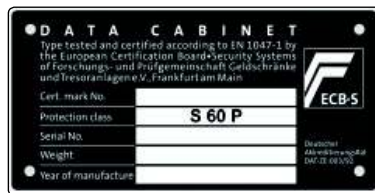

Contemporary recessed handles for the look most wanted by today's office designers.

### 3-Year Warranty

All International Files bear a 3-Year Warranty from date of purchase.

### Free Replacement Guarantee

If your FireKing International is ever required to protect your information in a fire, FireKing will replace your International File free if any damage has occurred to its exterior.

### 2-2130-CML:

Two-Drawer Vertical International  
Dimensions:  
759 mm H x 539 W x 802 mm D  
28 55/64" H x 21 7/32" W x 31 1/2" D  
Weight: 195 kg/ 432 lbs.

### 3-2144-CML:

Three-Drawer Vertical International  
Dimensions:  
1103 mm H x 539 mm W x 802 mm D  
43 27/64" H x 21 7/32" W x 31 1/2" D  
Weight: 302 kg/ 668 lbs.

### 2-3830-CML:

Two-Drawer Lateral International  
Dimensions:  
759 mm H x 952 mm W x 562 mm D  
28 55/64" H x 37 31/64" W x 22 1/8" D  
Weight: 264 kg/ 585 lbs.

### 3-3844-CML:

Three-Drawer Lateral International  
Dimensions:  
1103 mm H x 952 mm W x 562 mm D
